DOUGLAS H. GALBRAITH

Douglas Galbraith Receives New FUA Appointment

Paul Babey, president of the FUA, has announced the appointment of Douglas H. Galbraith of Vulcan, to the newly established position of executive assistant.

Mr. Galbraith has been active in the FUA organization since its inception and has served as alternate director of District 12 for the past eight years. He has also served as a director of the Vulcan Seed Cleaning Co-op, is a past-president of the Vulcan Chamber of Commerce and the Vulcan Telephone Mutual.

Since graduating from the University of Alberta with a degree in Commerce in 1942 Mr. Galbraith has had, in addition to his grain and beef farming, experience gathering statistical information and in general office management which will comprise the bulk of his new position.

Commenting on his new duties, Mr. Galbraith said that the work of the FUA is increasing. The amount of influence and persuasion required from the people in agriculture to get their point of view taken into consideration in this increasingly organized society, is likewise increasing, he thinks. "My reason for accepting this position," he said, "is that it is a great opportunity to serve agriculture."

Mr. Galbraith, his wife Violet, Stewart, Judy and Susan, moved to Edmonton last weekend where they will make their home.

Deadline Near For Tree Orders

Each Spring, thousands of farmers across the Prairie Provinces plant farm and field shelter belts to aid in soil and water conservation programs, as well as to beautify their holdings. These trees are obtained without charge from the PFRA Tree Nurseries at Indian Head and Sutherland, Sask.

This coming Spring, 12,000,000 tree seedlings will be available for distribution. This is by far the greatest quantity ever offered, and makes it possible to fill all orders that are received promptly. Processing these orders is a big pre-distribution job any year, but is of particular significance in 1965 due to the record number of seedlings available. For this reason it is imperative that orders may be received by the end of January to provide any reasonable degree of

certainty that they will be processed. Dr. W. H. Cram, superintendent of the Indian Head Nursery, is urging farmers to submit their orders immediately said: "With 12,000,000 trees involved in the Spring of 1965, a large number of railway boxcars will be loaded with thousands of individually packed bundles. If we don't receive orders in time to tabulate them, prepare tags, and determine routing, then we must reluctantly set those orders over for another year."

Dr. Cram added that Agricultural Representatives, District Agriculturalists, Municipal Offices and PFRA Water Development Offices are equipped to help farmers determine their tree needs and get their orders in. They should be mailed directly to the PFRA Tree Nursery at Indian Head.

Vulcan Area One Of Three

Test Areas Named For All-risk Crop Insurance

The locations of three test areas in which all-risk crop insurance is to be offered in Alberta this year have been announced by the Alberta Crop Insurance Corporation. These are the Vulcan area in southern Alberta, taking in the region from Nobleford to 10 miles north of Vulcan; the Lacombe area in central Alberta, running from Blackfalds to north of Ponoka; and the Minburn area in northeastern Alberta, extending from Ranfurly to Vermilion. Each test area has about 25 townships and from 900 to 1500 farmers.

The announcement was made by J. M. McKay of Brant, chairman of the Alberta Crop Insurance Corporation, while addressing the annual meeting of the Alberta Federation of Agriculture in Red Deer last week.

Mr. McKay said that these areas had been selected in order to provide a wide diversity of farming and weather conditions and because of general interest in crop insurance shown by farmers.

Rates, which are now being finalized, will vary not only between districts but from one farm to another, depending on soil type, long-time average yields, crop losses and hail risk. Participation is entirely voluntary, but one-quarter of the farmers, or farm land, in each area is needed for the program to become operative in the area.

Mr. McKay told Federation of Agriculture delegates that this year only wheat, oats and barley would be insurable but it is expected that other crops will be added in the future. This is the first year that crop insurance has been available in Alberta under a joint federal-provincial program. The two governments will share equally all the administration, operating and selling expenses. In addition, the federal government will pay one-fifth of the total premiums.

Coverage for wheat will range to a high of \$20.60 per acre for a crop sown on summerfallow on the best soil in the Lacombe area. Though not yet finalized, the premium will likely range down from about a dollar an acre. Farmers will be guaranteed this amount of production.

In the Minburn area top coverage for wheat will be \$18.10 an acre and at Vulcan protection will run up to \$17.50 per acre.

Mr. McKay said he hoped that at least 1500 farmers would sign up for crop insurance this year. If the program gains wide acceptance it will be extended into other districts next year. Agents will soon be appointed in the three areas and selling of insurance will commence early in February.

Services Thursday For Mrs. W. Peters

Mrs. Minnie Peters, aged 81, of Vulcan, died on January 18, 1965.

Born at Williamsford, Ont., she moved to South Dakota in 1906 and in 1909 to Etzikom, Alta., where she and her husband farmed until retiring to Vulcan in 1949. She was a member of the Kirkcaldy WI and the Vulcan United Church.

Besides her husband, William, she is survived by two sons, William Eldon of Calgary and Harry Andrew of Vulcan; three grandchildren; and two sisters, Mrs. Angeline Wismer of Vulcan and Mrs. Mary Speir, Calgary. She was predeceased by a son, George, in 1922 and by two brothers, George N. Bittorf, Edmonton, in 1959, and W. J. Bittorf, Calgary, in 1962.

Services will be held at the Vulcan United Church on Thursday, Jan. 21, at 2:00 p.m., with Rev. Wellington Dorrer officiating. Vulcan Funeral Home is in charge of arrangements and pall bearers will be Wilfred Bittorf, Donald Mallory, Harry Roebuck, John Roebuck, William Roebuck and Bert Daniels.

Big Attendance At Willard's Pancake Day

The most popular eating place in town last Wednesday was the premises of Willard Equipment Ltd., when almost 350 persons attended the annual I.H.C. Pancake Day.

From 10:00 a.m. to 5:00 p.m. free pancakes, bacon and coffee were served to all comers and entertainment was available in the form of free movies on hockey, curling and other subjects.

Two door prizes were given away: a case of antifreeze going to Vernal Haga and Mrs. Bill Campbell of Mossleigh winning a powder and perfume set.

Home Nursing Classes Now Being Organized

Plans have been made for classes in Home Nursing to be held in Vulcan and the surrounding area for the first time in many years.

Members of the Vulcan Chapter of the Alberta Association of Registered Nurses will provide the instruction. Each class will consist of 10 to 12 candidates and as many classes will be organized as enrollments require. The course is being arranged by St. John's Ambulance and the enrollment fee of \$5.00 includes the cost of test book and roller bandage.

It is likely that at least one of these classes will be held in the

private homes of those enrolled. Classes will be held once a week for ten weeks and will give instruction and practical work on such subjects as: factors influencing health; rest and comfort, routine care, nourishment, what to observe and how to report, simple treatments, administration and care of medicines, care of special type patients, preventing the spread of infection and nursing care under emergency conditions.

Those interested in taking this home nursing course are urged to enroll as soon as possible in order that the classes can be started soon. Enrollments may be made with the District Health Nurse, Miss Desharnais, phone 485-2423, or with J. Lundy Findlay, phone 485-2628 or members of the Vulcan Chapter, AARN.

Men may also take the course but would be in a separate class, providing sufficient numbers enroll to warrant such a class. A special class for husband and wife teams can also be arranged.

Casa Grande, now a National Monument, is a four-story apartment house built 600 years ago by Salado Indians in Arizona.

Fred Burley of Okotoks, formerly of Brant, happily shakes hands with Vulcan Kinsman Ken Gatenby as he accepts the \$1,000 cheque as

his winnings in the Kinsmen's Trip To Hawaii draw, completed before Christmas. The cash alternative was chosen by Fred who felt the lure of cold cash more strongly than that of sandy beaches and other more tangible assets along the Hawaiian shoreline.

Many models of 1964 appliances are on sale now and from the office queries it sounds like numerous people are pondering over the purchasing of a dryer.

One of the first questions asked, which would you purchase — a gas or electric dryer?

Initially, gas dryers are somewhat more expensive to purchase, but there is the added installation cost for 220 wiring required for an electric dryer.

Operating costs for a dryer vary depending on rates in a particular area. However, results of many tests have shown that a gas dryer is cheaper to operate than an electric one in many parts of the country. By checking with the local utility companies' Home Service departments, statistics can be obtained, on operating costs for both gas and electric dryers.

Another point to consider when comparing both types is the cost which would be involved if it was necessary to replace an element in the electric dryers.

Whichever type you decide on

the reputation of the dealer and guarantee are extremely important. The availability of service and repairs in some rural areas is anything but convenient. Often appliances require few repairs the first few years but as they become older more money seems to have to be spent on servicing them.

To keep repairs to a minimum remember the more complicated an appliance — the more "gadgets" it has, the more likely something can go wrong. Also, the more people operating it, the more likely something may go wrong. Money can be saved on repairs by simply taking a few minutes off to sit down and read the instruction book and learn as much as you can from your dealer on how to care for and use it.

You often hear women comment that dryers cause clothes to yellow. In many cases this can be avoided by: First, follow the laundering instructions given with garments; second, by making sure the thermostat on the dryer is not too high and the clothes dried to excess; and third, by making sure that no detergent is left in the clothes after rinsing.

The experiences of others using these appliances can often aid you in your decision, so check with friends and neighbors.

Not only on dryers but when purchasing any appliance all these points are well worth considering:

The price.

The operating costs.

The repair costs.

The guarantee or warranty.

The reputation of the dealer.

How quickly it can be serviced

The ease of operating.

WINTER AT NIAGARA — The superstructure of the Rainbow Bridge, which connects the United States and Canada, frames Niagara Falls in this typical winter scene. The American Falls is at left and the Horseshoe Falls is at right. Spray from the falls freezes on rocks and trees near the cataracts. The river ice glut is formed by ice from the upper river plunging over the falls and jamming below the cataracts.

CATTLE FEEDING SUGGESTIONS

Livestock producers who are faced with a shortage of hay should look to substituting their roughage with grain.

Useful feeds in times of shortages such as cereal straw, chaff, and screenings may find a useful place in the ration.

More grain and less forage will be the rule in some areas this year. Keep in mind that the energy content of grain is considerably higher than that for forage. Grain should not be substituted pound for pound. About 60 pounds of barley or wheat will replace 100 pounds of good quality forage. To prevent digestive upsets, not more than 75% of the ration should be grain.

Oat or wheat straw can be used as substitutes for hay in providing minimum roughage requirements. When straw is fed, approximately one additional pound of grain would be required for each three pounds of straw substituted for an equal quantity of hay.

If hay and other roughages are very scarce and expensive in relation to grain, some risk may have to be assumed by feeding less than the desirable minimum amounts of roughage, and more grain.

Always an important consideration, Vitamin A supplementation will require particular attention this year. Three months after drying up of the pasture is the recommended time to start use of gelatin stabilized Vitamin A; up to 10,000 International Units (I.U.) per day for calves; 20,000 I.U. per day for yearlings and 30 to 40,000 I.U. for pregnant animals. The last 6 weeks of pregnancy is a particularly critical time as far as Vitamin A requirement is concerned.

Two new publications dealing with livestock rations, "Adjusting Livestock Rations to Available Feed Supplies" and "Wintering the Commercial Beef Herd", are most

interesting and useful for the livestock man looking for information on these subjects. These pamphlets are available from my office.

It costs about 50 per cent more to drive at 80 miles an hour than at 50.

Why did Mr. & Mrs. Graham open a Scotia Plan Cheque-Credit Account?

It all started when Mary Graham saw all the bargains advertised in the newspaper. Several stores were having big sales and she showed Jack the low prices on portable T.V.'s, and, of course, the specials on fur jackets. These sales were a "once-a-year" chance for the Grahams to take advantage of good buying opportunities but they didn't have the ready cash. The next day Jack Graham was discussing his

problem with his Scotiabank manager. He learned the details about Scotia Plan Cheque-Credit and Jack quickly saw its many advantages. After a few questions about his job and how much uncommitted monthly income was available for Cheque-Credit, Jack and Mary Graham were well on their way to getting the things they needed—and at sale prices, too.

Cheque-Credit gives you the extra money you need—when you need it!

1 You select the monthly payment that you can afford and then apply for twelve times that amount.

2 When your application has been approved you receive a book of special personalized cheques.

3 You are not confined to spending in specified stores. Your cheques are good for anything you need, anytime, anywhere in Canada.

4 The charge on Cheque-Credit accounts is \$6.00 per year for each \$100 borrowed. You pay only on the amount of credit actually used. You do not pay anything for the money held in reserve for your account.

5 Your monthly payment is approximately one-twelfth of the amount of credit you have used so far.

6 Each month you will receive a statement of cheques written, payments to be made, and the amount of credit still open.

7 Each payment you make rebuilds your Cheque-Credit reserve, giving you a continual supply of credit.

Scotia Plan Cheque-Credit is life-insured, too, at no extra cost to you. Find out today all about Cheque-Credit at your nearest Scotiabank.

New Crop Insurance

A self-help program, intended to take some of the risk out of crop production, describes the all-risk crop insurance being offered this year in three areas in the province of Alberta. A joint project of the provincial and federal governments, the crop insurance program will be administered by the Alberta Crop Insurance Corporation, with offices at Calgary. J. M. McKay of Brant is chairman of the Corporation and Edwin A. Patching was appointed last year as general manager.

In the Vulcan test area, the boundaries are, roughly, from a line 10 miles north of Vulcan south to Nobleford, east to Lake McGregor and west to the west side of Range 25. Participation in the insurance program is purely voluntary, but at least 25 per cent of the eligible acreage in the area must be insured if the program is to become operative.

Farmers taking out the new all-risk crop insurance will become exempt from the one per cent PFAA levy on their grain deliveries and will not be eligible for PFAA benefits. A very informative pamphlet has been put out by the Corporation, with answers to most of the questions likely to be raised.

Unlike Prairie Farm Assistance, insured farmers will pay a premium based on their actual acreage and claims will be adjusted on each individual farm. Rates for this area have not yet been announced but can be expected to be realistic.

All-risk crop insurance is designed to provide stability of farm income. Major crop losses are generally due to natural perils such as drought, hail, frost, excessive moisture, insect pests or disease and it is loss due to these perils that the insurance will cover. If the loss of a crop can seriously hurt a farmer, it seems that it is only good business to insure against that loss.

LETTER TO EDITOR

Editor, The Advocate

Dear Sir:
Well, on a Thursday night recently the lines were painted on the ice at the Vulcan Hockey Rink to again issue in another year of Canada's National Sport.

The job isn't quite perfect but what can you expect from a gang of teenage hockey players and the one adult accompanying them, their coach. Remarks such as, "I guess the face-off circle should go about here," frequently echoed through the old building.

The boys would like to express their deep felt gratitude to the caretaker without whose assistance they could not have found the paint or for that matter the water to mix it with.

One last comment: Too bad the ice was flooded without sprinkling the lines with water; they ran just a little.

Yours truly,
A Fan

P.S.— Now that they are on maybe the seniors would like to play a few games.

Couple Honored

Mr. and Mrs. Orvel Webb entertained 20 guests Sunday, Jan. 17, in honor of Mrs. Webb's parents, Mr. and Mrs. Harry Orcutt of Lethbridge. BAND NEWS

(By Lloyd Jones)

Since their participation in Christmas musical events recently the Vulcan County Band has been deep in rehearsals for a future spring series of concerts and engagements.

Graduating into the senior band last fall were Marta Gottenberg, Susie Giles, Bobby Priebe and a recent addition to the sax section is Roseanne Findlay.

The band appeared at the Queen Scout ceremony at the local school auditorium last Saturday night and the short program of music before and during the program was well received by the audience.

The public is invited to attend the next practice of the senior band Monday night at the Hazel Cameron elementary school auditorium after which the annual general meeting will be held. The transfer by his company of Lloyd Jones to Camrose, will leave the band without a president and valued member. He and his family will leave at the end of the month so a new president and executive will be elected Monday night.

The Citadel Band of the Salvation Army, Calgary, will be heard again in concert this year, sponsored by the local band. A date in February will be set. Good representation is expected from local instrumentalists at the March band workshop to be held at Calgary.

The annual concert by the senior band will be held during April and a separate program featuring the junior band is set for sometime in June.

They are arranged on the various shelves in a systematic order and are easily accessible to the students. Reference Books are listed in order and the students have free access to them at any time. CLERICS' CORNER

This week's contributor: R. J. Pelham
Church of Christ

WHO AM I?

"Life is a cafeteria. There are no waiters to bring success to you. Help yourself. The Apostle Paul evidently felt that there was no standstill to human life."

What can one person like myself do? I don't count, is the defeatist attitude many people unconsciously slip into.

As we struggle to maintain a high level of morality and spirituality the words of Jesus strike a clear sound, "He that is not with me is against me."

—Matthew 12:30

What each individual does — or fails to do — affects, however slightly, the well-being of everyone. God expects each and every

person He sends into the world to be His messenger; in carrying a bit of divine love and truth into the heart of the market place.

As life is granted to each of us in the community of Vulcan and district, we should accept the challenge of raising our level of citizenship. For in the realm of spiritual and morality we have ample room to move upward.

Don't ever underestimate what you, personally and individually, can do by prayer, deed, to see that God's will is done "on earth as it is in heaven."

May our thought for the week be; a thanksgiving to God for the privilege of a small part in the drama of life.

Assisting in opening the gifts were her mother Mrs. Bertha Plourd; aunts Mrs. Edith Dow and Mrs. Irene Durrell; sister, Mary and sister-in-law, Nancy Plourd.
